## **QUICKCARE HOSPITAL NEUROLOGY DEPARTMENT**

Neurology is a branch of Medicine dealing with disorders of the Nervous System. Such disorders affect the brain, spinal cord, peripheral nerves and muscle diseases. Neurologists diagnose and treat neurological disorders. The aim of the Neurology Department at Quickcare is to offer comprehensive, world-class high-quality care dealing with patients suffering with the whole spectrum of acute and chronic neurological pathologies. Book your appointment with a neurologist in Dubai today.

### **SERVICES WE OFFER**

- [Headache & Migraine Clinic](#) – Headaches disorders such as migraine, tension headaches cluster headaches, Trigeminal Neuralgia (TN)
- Epilepsy and non-epileptic attack disorders

## **SCOPE OF SERVICES**

We offer a comprehensive service in Neurology for the clinical diagnostic evaluation, management and treatment of acute and chronic neurological disorders. We also actively engage in teaching and training.

We provide a Neurology Ambulatory Care Department and a dedicated in-patient Hospital admissions of acute neurological diseases

## **MEDICATIONS PRESCRIBED WITHIN OUR SCOPE OF PRACTICE**

Patients requiring neuro-imaging are referred to the Radiology Department which provides a full range of specialised imaging modalities including CT scans, MR scans, ultrasound (US) and Angiography

Our Clinical Neurophysiology Service uses specialised machines to record the brain, spinal cord, peripheral nerves and muscle functions to help in diagnosing the above disorders of the nervous system

## **COMMON NEUROPHYSIOLOGY PROCEDURES**

- Electroencephalography (EEG)
- Video EEG monitoring
- Electromyography for diagnosis of different Muscle diseases (EMG)
- Nerve conduction velocity studies for Diagnosis of different nerve disorders (NCS).
- VEP(Visual Evoked Potentials)
- SSEP (Somatosensory evoked potentials)
- BAEPS: Brainstem Auditory evoked potentials.
- Polysomnography
